Dr. Kennedy,

Thanks for coming up to the lab the other day to provide me with your data. As of now the only question is with the latitude and longitude coordinates of the stations for Ike and Gustav, and I was wondering if you have attached. Contained in the file are some corrections for the ike stations in order to get the water level. The corrections are to be added to available data, although I am not sure. This was in our data library so I make sure that these numbers sound correct to you.

Thanks again,

Rich,

Do not add corrections. What I gave you should have those already.

The gauge locations are:
